RiK Dev Partnership Guidelines

Welcome to RiK Dev

Let’s Build Something Impactful Together!

At RiK, we believe in building innovative and impactful projects that push the boundaries of tech and education. If you’re looking to partner with us, here's everything you need to know.

Who We Collaborate With!

We are open to collaborating with:

- **Founders** looking to turn ideas into tech solutions
- **NGOs** aiming to create social impact through tech and education
- **Startups** in the tech space wanting to scale or innovate
- **Solopreneurs** with ideas that aim to teach, empower, or disrupt the status quo

What We Offer!

As a RiK partner, you can expect the following support:

- **Technical Development:** Assistance with building, optimizing, or scaling your project.
- **UI/UX Design**: Creating sleek and user-friendly interfaces for your tools.
- **Firebase & Hosting:** Support with hosting and managing your project on RiK’s platform.
- **Exposure**: Visibility across our website and social media to amplify your project.

Our Expectations!

To ensure a smooth collaboration, we require:

- **Clear Communication:** We believe in transparency and regular updates.
- **Defined Scope:** All collaborations should have a clear vision and scope to avoid misalignment.
- **Credit Sharing:** We ask that any co-developed tools or content feature RiK Dev as a partner.
- **Financial Contribution (if applicable):** Some collaborations may require a financial commitment for development or resources. This will be discussed upfront.

Engagement Models

We offer flexible models for collaboration:

- **Advisory (Free):** Get insights or technical advice from RiK's experts
- **Co-Creation (Shared IP, Possible Cost):** Co-develop a product with RiK, sharing ownership and responsibilities.
- **Development (Paid Support):** Hire RiK's dev team to help build or scale your project on a paid basis.

How to Pitch a Project

Ready to pitch your idea? Follow these steps:

- **Fill Out Our Pitch Form:** Provide us with the details of your project, and what you need help with.
- **Review Terms:** Be sure to understand the terms of collaboration before submitting.
- **Submit Your Pitch**: Once submitted, our team will review and get back to you as soon as possible.
